Byron M. Buck, Executive Director
California Urban Water Agencies
455 Capitol Mall, #705
Sacramento, CA 95814

Dear Byron:

Thank you for your letter of September 19, 1995 regarding your comments on the September 14, 1995 workshop that was conducted by the CALFED Bay-Delta Program. Taking the time to relay your thoughts on this aspect of our program is truly appreciated.

I apologize for the delay in responding to your letter. Staff has reviewed your comments and suggestions to the Water Supply Causes material and they are part of our public comment record. We believe the Primary Problem/Objective Statement for Water Supply Reliability developed for the October 12 workshop addresses your concerns. In addition, staff is working on products for the December 4 workshop which we believe will also address your concerns and look forward to your review of this material.

Again, we appreciate your interest in the CALFED Bay-Delta Program and look forward to your continued involvement in this important effort.

Sincerely,

Lester A. Snow, Executive Director
CALFED Bay-Delta Program
